BIOSYSTEMS

Join us in Athens, Greece as we host world-leading scientists studying neural development, disease, and regeneration at our upcoming International Symposium entitled “Neural Stem Cells: Capturing Complexity and Plasticity from the Cell to the Organism.” This program will bring together researchers from across the globe investigating the complexities of neural stem cells from development through aging. The scientific sessions will explore exciting advances on the intrinsic and extrinsic regulation of stem cells and their progeny, epigenetics and metabolism, evolution and human-specific traits, neuron-glia interactions, programming and reprogramming, and insights from modeling brain development and disease.

PROGRAM ORGANIZING COMMITTEE

Fiona Doetsch, *University of Basel, Switzerland*

Rebecca Matsas, *Hellenic Pasteur Institute, Greece*

Florentia Papastefanaki, *Hellenic Pasteur Institute, Greece*

Era Taoufik, *Hellenic Pasteur Institute, Greece*

Hynek Wichterle, *Columbia University, USA*

Marie Engelen J. Obien, *MaxWell Biosystems AG, Switzerland*
